1.6 Points Scoring

1.6.1 The number of events (including the final) to qualify for points will be a maximum of 6 or the actual number of events organised for the championship less 2 (8 events, 6 to count) whichever is the lower. Contenders gaining points in more than the required number will drop their lowest scores. In the event of 5 or less events, all points will count.

Championship contenders will score points in overall and classes based on class positions. All competitors at an event will be considered in this calculation. Only a competitor's fastest time on the day will count. Classes will not be amalgamated but unless a minimum of 3 competitors in class is reached, only 5 points will be awarded for a class win and 4 points for second in class.

Points will be awarded as follows:

1st - 6, 2nd - 5, 3rd - 4, 4th - 3, 5th or lower - 2.

A championship entrant who starts timed runs but fails to record a time during an event will receive 1 point.

At the final, double points will be awarded. This will be based on the first two timed runs only. E.g., if a contender finishes 1st on the first run and 3rd on the second run, then the points total will be 10 based on at least 3 recorded times on each run.

Points cannot be transferred between classes, but a driver can change class provided that the Championship Co-ordinator is notified a minimum of 48 hours prior to an event.

Any competitor competing in all or all less one championship qualifying events during the year will receive an additional 2 points. (Note: Starting practice is included for additional points to be scored).

1.6.2 Ties will be decided using the following in order to judge the winner. The competitor who:

- Took part in the least number of championship events.
