Introduction

Chelmsford Motor Club is pleased to announce the XPart Rally.

The **XPart Rally** is a day/night endurance road rally for lightly modified two-wheel drive cars limited to 1400cc petrol and 2000cc diesel non-turbo engines, built to the Endurance Road Rally formula. This event will be run in support of both **Help For Heroes** and **Soldiers, Sailors, Airmen and Families (SSAFA)** charities; last year CMC events raised over £3000 for charity.

Starting mid morning on Saturday 18th February 2012, the route will be centred around Bury St Edmunds, with over 100 miles of selectifs at various venues in Suffolk, Norfolk, Cambridge and Essex.

The day leg start will be from the Ramada Hotel, Bury St Edmunds, including a short break for lunch followed by a supper halt (carvery) at The Rushbrooke Arms, Sicklesmere. The day leg is approximately 200 miles with approximately 80 miles of selectifs. The night leg will be approximately 90 miles including 20 miles of selectifs and approximately 15 miles of simple navigation on tarmac lanes (full night leg road book issued at supper). The event will finish with an awards presentation at the Ramada Hotel, Bury St Edmunds. A special rate has been negotiated with the hotel for those crews who wish to stay Friday 17th / Saturday 18th and/or join the organisers in the bar after the event.

The route instructions will be straightforward. Similar to last year, tulip road books will be provided and complemented with detailed selectif diagrams to ensure that crews of all abilities can complete the rally.

Chelmsford Motor Club, which celebrated its 50th anniversary in 2006, is noted for its high-quality and popular events organised by experienced competitors – winning the 2009 MSA / JLT Sport Club of the Year award. The club's results service using Liege timers and chips is one of the best in the country.

As usual, **M&H Photography** will be covering the rally and this year the **entry fee includes two presentation prints**.

As an incentive to marshals we have £100 cash prize draw and a free supper for those marshalling both legs of the event.

We are delighted to be a round of the **2012 Endurance Road Rally Championship supported by Sportway Tyres**, <http://www.endurance-rallying.co.uk>

The entry list will open on publication of these regulations. Further information and updates of route details and recce notes will be published on the CMC website.

You can enter and pay on-line at <http://chelmsfordmc.co.uk>. Please show confidence and commitment and enter early – should you wish to cancel a full refund will be given until seven days before the event.

13 Route Instructions

A road-book containing tulip diagrams covering the road sections between Main Time Controls, Test Venues, Petrol Halts, Rest Halts and the location of black spots and give way junctions will be given to competitors when they sign-on. A second road book of tulip diagrams for the entire night route will be issued at the supper halt.

On the night route, General Regulation R9.1.3 requires cars stop before entering any road protected by a stop, halt or give-way sign or joining a road of a higher status as shown on the map or as defined in the route instructions. Stopping is defined as ceasing all forward movement before crossing and within 10 feet of the road markings or where the markings should be. The penalty for failing to do so is exclusion.

On the day routes, junctions shall be treated in accordance with the Highway Code. It is not necessary to stop but competitors must give priority to traffic from the right (R9.1.4)

The route covers OS 1:50000 (Landranger) Second Series maps numbers: 144, 154 & 155. maps will NOT be required as (licensed) colour copies of relevant map sections will be provided for those competitors wishing to plot the tulip diagrams.

14 Quiet Zones

Along the route the organisers may establish Quiet Zones. In a Quiet Zone, competitors must use dipped lights and drive quietly in as high a gear as possible. Quiet Zones will be notified to competitors in the route instructions and additionally by the use of "Q" boards on the route. The non- appearance of these boards does not invalidate the Quiet Zone and the onus lies with the competitor to comply with the route card / road-book. All 30 and 40 MPH areas will be considered Quiet Zones in their entirety.

The penalty for failure to observe the requirements of a Quiet Zone will be exclusion.

15 Road Section Timing and Control Procedure

The rally will be run under Scheduled Time R12. The following types of control will be used (R10):

- (i) **Main Time Controls** (MTC) at points which competitors must visit during the time the control is open in order to be classified as a finisher. MTCs will be typically located at the start and finish of each leg and at the petrol halts.
- (ii) **Time Controls** (TC) at intermediate points on the night route where competitors' times will be recorded. Time Controls will be denoted TTC at the end of a Transport section, NTC at the end of Neutral, STC at the end of a Standard section and IRTC for the middle of regularity sections. IRTCs will be timed to the second.
- (iii) **Passage Checks** (PC) at intermediate points during the night leg where marshals must sign competitors' Road Books
- (iv) **Route Checks** (RC) at intermediate points during the night leg, competitors must record the letters displayed on a board as proof of passage. Any unmanned TC or PC shall be treated as an RC.
- (v) **Secret Checks** (SC) established at undisclosed points to check competitors driving behaviour and/or adherence to route instructions and/or adherence to the Supplementary Regulations.
- (vi) **Selectif Starts and Finishes** (SS and SF) at the start and finish lines of tests.

If any control is unmanned, it will assume the status of a Route Check.

The beginning of a Control Area will be indicated by a control board. Competing cars may enter the control in the minute preceding their due time, **BUT NOT BEFORE**, but timing is strictly on presentation of timecard.

One day's service. A lifetime of support

Electronic tags will be affixed to each competitor's timecard for the purpose of recording times from the marshals' clocks. The times stored by the tags will be downloaded into the results computer at rest halts for speedy production of results. This equipment is considered as part of the time card and must be returned to the organisers with the damage declaration.

Competitors will start at minute intervals. Each competitor will be due at each MTC and TC at the Standard Time, plus their rally number in minutes. This is their Scheduled Time.

Competitors booking in at MTC or TC before their Scheduled Time will be penalised at the rate of 120 marks per minute. Note that penalties for early arrival are cumulative. E.g. if you are one minute early at one control and the same amount early at the next, you are penalised for early arrival each time. On the other hand, if you revert to your Scheduled Time (and thus take a minute longer than the time allowed for that section), you are not penalised for lateness, as the objective is to get back to your due time as soon as possible.

Maximum Permitted Lateness at all controls is 30 minutes, except at the end of each leg where it is extended to 45 minutes. Competitors arriving at a TC more than 30 minutes after their Scheduled Time will be deemed not to have visited that control. On the Day Leg you will be penalised for lateness at the Start Control of the leg. Apart from this, there are no lateness penalties.

On the Night Leg you will be penalised for lateness at the Master Time Control at the start of the leg, and at time controls at the end of standard and regularity sections. There are no penalties for lateness at controls at the end of Neutral or Transport Sections other than Maximum Permitted Lateness.

There will be no intermediate Time Controls prior to Special Tests. Competitors may report to these points and start the test or section at any time during the period they are open. They should be ready to start the test IMMEDIATELY on arrival; they may be instructed to start the test and timed accordingly even if they are not ready to move off. Please arrive at test and regularity starts as early as possible without driving too fast; this will assist the running of the event and give you a greater lateness cushion.

Except where specifically instructed in writing, competitors may not pass through a Control of any kind more than once; may not turn round in a control; and must approach and depart from the control in the directions specified or implied by the route instructions. The penalty for doing otherwise is equivalent to missing that control.

16 Special Tests (Selectifs)

During the event there will be a number of tests timed to the second.

Timing on Tests may be either by means of separate Start and Finish clocks or a single stopwatch.

All crew-members, tools, equipment, etc. must be carried in their normal places during each Test.

Competitors must be ready to start each Test immediately on arrival in the control zone. If they are not ready, they may be given the start signal anyway and their Test Time taken from then.

Competitors overshooting the Finish line **MUST NOT REVERSE BACK**. They will be allocated the time at which they cross the line plus the penalty for failing to stop astride (20 seconds added). A competitor who reverses back will be given the Maximum Time.

It is possible that cars will close up towards the end of longer tests. Force majeure will apply should any competitor be baulked in these circumstances.

A Bogey Time for each Test will be published, based on a maximum 40mph average speed. A Maximum Time for each Test is up to three times the bogey, this time is the maximum penalty that may be assigned for a test.

One day's service. A lifetime of support

A competitor's deemed time for each Test will be calculated as follows:

- | | | |
|---|---|-------------------------------|
| a | Taking the Bogey Time or Less | Assigned bogey time |
| b | Taking longer than the Bogey Time but less than the Maximum Time | Assigned actual time taken |
| c | Taking longer than the Maximum Time | Assigned Maximum Time |
| d | Striking a cone or marker | 10 seconds per occasion added |
| e | Failing to stop astride a line, including finish line, correctly | 20 seconds per occasion added |
| f | Making a false start, taking the wrong route or otherwise failing to complete the Test (includes making no attempt to stop astride, missing or driving through a pair of lettered gates from the wrong direction) | Assigned Maximum Time |
| g | Not attempting a test. | Assigned Maximum Time |
| h | Additional penalties for specific requirements of a test | As defined in the Road-book |

17 Night Leg

The Night Leg will use the following 30mph or less road section types: Standard, Neutral and Transport and Special Tests (Selectifs) timed at 40mph or less. There will be no lateness penalties at Time Controls at the end of Transport or Neutral Sections except for Maximum Permitted Lateness.

Timing is on presentation of time card (i.e. if you arrive early you may wait for your time to come up). Competitors late at one TC may be an equivalent amount late at the following TC without further penalty (Penalty Free Lateness).

Competitors may reduce this lateness (make-up) at the end of a Transport or Standard section, provided that in doing so they do not take less than three-quarters of the intermediate time allowed on sections greater than 4 miles – R12.7. The amount of time that may be made up will be clearly shown on the timecard. Competitors taking less time will be penalised 1800 marks for the first occurrence and excluded for the second time.

The maximum penalty that may be incurred at any one time control for lateness and/or failure to visit within Maximum Permitted Lateness and/or wrong direction of approach and/or departure is 1800 marks.

Competitors missing one or more time controls may book in without further penalty at the next TC visited at their scheduled time provided that the TC is at the end of a Standard Section. They may alternatively carry forward all or part of their Penalty Free Lateness. If the next TC the competitor visits is at the end of a Neutral Section, he may not make-up any time and must carry forward all Penalty Free Lateness.

During the Night Leg, there will also be Passage (manned) and Route (unmanned) checks. The penalty for missing such a check will be 300 marks (equivalent to 5 minutes' lateness). Passage and Route Checks and Time Controls must be visited in the correct order; marshals at Time Controls following Route Checks will be instructed to cancel blank RC spaces on competitors' Time Cards. The abbreviation PC will be used to denote both types of check during the rally.

One day's service. A lifetime of support

There will be selectifs on the night route - SR 16 applies. 18

THANK YOU

The organisers of the XPart Rally 2012 would like to express their thanks to all those who have assisted us in putting on this event - without their support it would not be possible.

Thanks are also due to you, the competitors – without you there is no event either, nor donation to Help for Heroes and SSAFA- both extremely worthwhile causes.

We would like to give special thanks to the generosity of the following companies:-
