Total mileage will be approximately 45 miles through the lanes of Suffolk and North Essex.

If coming via Sudbury fuel is available on the A134 Sudbury by-pass (Esso, Shell or Tesco). If coming from the north the nearest fuel is at Bury St. Edmunds.

Noise and scrutineering will be on the Green opposite the pub.

VERY IMPORTANT

Cars will be subject to scrutineering and noise testing. Particular attention will be paid to auxiliary lighting and other PR sensitive factors, as well as vehicle safety factors.

Please be ready to produce V5 and MOT certificate.

The Scrutineer has the power to exclude any vehicle which fails noise testing or scrutineering, or which is deemed by the Clerk of the Course to be outside the spirit of the event.

DRIVING STANDARDS

We have been warned by the Essex RLO that we need to drive with consideration for the general public, especially residents along the route. In particular we should try to drive in as high a gear as practical and avoid heavy acceleration in low gears which causes unnecessary noise. Stop, dip and pull over when meeting oncoming traffic. If you need to stop to plot make sure you are away from housing. Please remember this is a NAVIGATIONAL rally. All marshals will be deemed judges of fact and may retain the time card of any crew which is seen to drive in an inconsiderate way. In addition there may be a number of DSOs on the route and also a 'drive-by' noise test may be in operation.

QUIET ZONES

To clarify, any part of the route which is designated as a quiet zone, either in the final instructions, in the navigation or by the use of Q or DIP boards should be driven carefully in high gear/low revs, and with NO AUXILIARY LIGHTS.

STOP & GIVE WAY (SGW) Junctions

When joining a road of higher classification (e.g. a yellow to a B or A road) and at specific other junctions indicated by the acronym SGW in the final instructions or navigation, the car must come to a complete stop, with DIPPED HEADLIGHTS, before proceeding. It is good practice to dip headlights at any T junction even if not specified as a SGW.
