14. Noise Test and Scrutineering

Exhaust noise should not exceed 98dBA at 0.5m @ 2/3rds maximum RPM.

Eligibility of vehicles is as per navigational rally rules. All vehicles are liable to be scrutineered for adherence to Road Traffic legislation in relation to tyres, lights, wipers/washers and current MoT [if required].

Small vans are permitted.

If your car has an airbag on the passenger side, we strongly recommend that you do not use a map magnifier, or any other item that has a hard surface when navigating on this event. You should also consider that any map-board should be made out of a collapsible material such as cardboard.

Cars will be allowed to start subject to compliance with noise and lighting regulations and with no sponsorship decals. Any vehicle deemed to be outside the spirit of the event will not be allowed to start.

15. Controls

All manned controls where competitors are required to stop will have a control board approximately 50m ahead of the control on the direct of approach that will denote the start of the control area. They must be visited in the order indicated on the route card. Any controls visited out of order will be deemed not to have been visited.

Any control that is unmanned (except for Secret Checks) will be replaced by a code board.

All 'Secret Checks' where competitors are required to stop will have a 'Passage Check' board approximately 50m ahead of the control.

Code boards consisting of black number plate sized letters on a white on a white background will placed along the route.

Penalties will be awarded for failing to record code boards on the time card.

Code boards must be recorded in ink on the time card.

Controls will open 15 minutes before the due time of the first car and close on scheduled time of the last car plus the maximum permitted lateness for that control which will be 30 minutes.

16. Timing

BBC timing or 'Liege' style clocks will be used. Competitors will know their start time and the time allowed for each section will be specified in the time card/road book.

A competitor's due time at each control can be determined from the individual time schedule.

If you are late you can only make up time in the sections specified on the time card.

Competitors will be timed as they present their time card. If a competitor arrives at a control early, they must wait outside until a minute before their due time.

Competitors late at one control may be an equivalent amount of time late at succeeding controls without incurring further time penalties, providing they do not exceed their maximum lateness allowance.

The amount of time that may be made up at time controls will be specified on the time cards and where applicable the three quarters rule (R12.7) will be upheld.

17. Insurance

Vehicles must have a valid motor insurance policy which provides as a minimum, Third Party Liability cover that complies with the Road Traffic Act. This can be either, by extending an existing motor policy to cover the event, or, by purchasing additional cover, providing under the Event Road Section Scheme as an adjunct to an existing motor policy. If a competitor has an extension to their existing policy, they will be required to sign a declaration that the cover complies with the requirements of the Road Traffic Act. Any responsibility for a fraudulent or misleading declaration about existing cover lies with the competitor.

Anyone aged less than 19 years old will also be accepted at the same price should their co-driver be a more senior member of their family or over 25. Any competitor who falls outside these parameters may be offered cover at equivalent terms or an agreed price, if approval from the Appointed Insurance Broker has been obtained by the event organisers, prior to the event. Approval can be sought by sending an email to Info@kingfishermotorsport.com and provide the Drivers' name and date of birth, the date they passed their driving test and details of any motoring claims and/or convictions.
