CRO [Coloured roads only]

Novices/Beginners

From TC2 at MR NNW644121½SSW, proceed to TC3 at MR ESE622132½W via the following which are colours of all the roads when viewed from the centre of the junction, for example YYY is a junction of a yellow road with another yellow road. The first letter denotes the colour of the road you are on and last the colour of the road on which you leave. For example YRR is approach on the yellow road and leave the junction travelling on a red. For this clue you always need to look a few junctions on to make sure the route works.

CRO [Coloured roads only]

Novices/Beginners

From TC10 at MR NE736148SW, proceed to TC11 at MR SSE718127 via the following herringbone in the direction of the arrow. From the dot, if the first line is on the left you must not turn left, which is either straight on or if the junction is on the right, to not turn left means you must turn right. A line straight across is a cross road where you must not turn left or right, in other words go straight on, if it was an upturned V on the right, this means do not turn right twice so you turn left.
