A number of classified finishers did in fact cut route, several quite a lot.

ALL fourteen official retirements were on Leg One! So all who started Leg 2 went on to be classified finishers - amazing!

Car 2 lead for first two sections; Car 5 took lead on section three and remained ahead to the Finish. Car 2 remained in second place to the Finish.

From the second section on, third place was held by one of the Turner brothers for the whole rally! On six sections they were within seven seconds of one another's times!

The winners, Car 5, were quickest on eleven out of eighteen sections; second (or equal second), on five sections; equal seventh on one section; eighth on one section.
