

### Javalin's Jumbo Targa Rally

## Sunday 13<sup>th</sup>July 2014

### **Final Instructions**

Petrol There is no petrol available at the venue. You will need fuel for 15 competitive miles.

·

Access to the venue is available from 7:15am. Gates will be locked at 8.45am.

Access is via the Eastern Gate (No. 7) ref 167 / 728 328 for entering and leaving. The gate is accessed up a lane from a junction at 167 / 731 322 (which is sign posted off the road as RSPCA Animal Shelter) and will be arrowed. The nearest post code for sat nav. users is **CM7 4EP**. Please use caution when driving down this lane as there are houses and dog walkers.

THE SPEED LIMIT on all areas of the airfield, EXCEPT THE TESTS IS 25 MPH. The penalty for excess speed or dangerous driving is **exclusion** from this and future events.

Please bring a photo ID (passport, driving licence) if possible. There **will definitely** be a number of vehicle searches (chosen at random) on leaving.

Noise Test Prior to signing-on please report to the noise test and scrutineering area east of the

paddock between 07:15 and 08:50. Vehicles must not exceed 86db at 2m at 2/3rds

maximum rpm.

Scrutineering Cars must produce a current Tax Disc, MOT and a Spill Kit. The cars will be checked for

basic safety such as secure seats, and conformity with road-rally rules.

Interior trim must include:

Front door cards – original trim, or a sheet of firm material covering the door so there are

no exposed metal edges.

Roof lining. Rear seats.

Carpet. The carpet in the driver's side foot well must be fixed down, and not be free to

move to interfere with the pedals.

Any hydraulic handbrake must use the existing manufacturer's handbrake lever, mounting

position and pivot point.

Only the area of two sides of A4 of advertising is allowed, anything more is to be covered.

Engines must have a maximum of 4 cylinders, and no more than two carburettor chokes. If

fuel-injected, engines must use the original plenum chamber and throttle body.

Club Cards The event is closed-to-club, so all competitors need to be members of Chelmsford Motor

Club. If you need to join on the day, please bring a completed membership form with

you: http://chelmsfordmc.co.uk/cmc/Misc/CMC Membership Form.pdf

Signing-on Bring your completed process sheet to signing-on. Anyone not signed on by 9:00am

will not be allowed to start.

Crew Briefing There will be a crew briefing at 9:00am in the paddock area.

Start time The first car will leave for Test 1 at 9:15am and cars start in numerical order at

minute intervals.

The first three time cards start with a time control on the way to the first test. This is to feed you into the section alongside a live test at minute intervals. There are no time penalties at these controls.

Notices The Official Notice board will be located by the results area for the duration of the event.

Official notices posted there will have the same force as the SRs. Please also note that

in-car video cameras are not permitted.

Toilets Toilet facilities are provided in the paddock area.

Tyres If you come with one set of road tyres that are just legal, they most likely will not be when

you leave, so bring spares accordingly.

Refreshments We have new caterers at this event who come highly recommended. They will be able

to provide drinks and snacks from 8am onwards. Please make use of these facilities. Marshals will be provided with a voucher for one drink and snacks free of charge, as

without them the event would not run.

Results The rally consists of 15 Special Tests timed to an accuracy of 1 second. Results will

be calculated based on the sum of times for all tests. Results will be available at

mtc1.uk, and posted on the side of the inflatable shelter.

To be classified as a finisher, you must start the first test of each time card,

and visit each results PC.

Rubbish Rubbish sacks will be provided with your road book. Please take all rubbish home.

If your car is likely to drop oil in the paddock please bring a groundsheet.

Stewards Club Stewards are Tony Clements and Richard Nel.

MSA Observer Alan Barnard.

Recovery County Rescue.

Spill Kits Reminder of MSA requirement as per regs." All vehicles must carry a Small Spill Kit

complying with J5.20.13 A self-contained spill kit capable of effectively absorbing minor spillages of up to 1.25 litres of all vehicle fluids – oils, fuels, coolants, battery

acid"

#### **Event Format & Timetable:**

7:15	Gates Open, Scrutineering & Noise Check
8:45	Gates Close
7:15	Gates Open
9:00	Driver & Navigator Briefing in Paddock
9:15	Car 1 to leave the Paddock
9:20	Test 1 to commence
10:50	Test 4 to commence
12:25	Test 7 to commence
13:30	Lunch Break. This allows marshals to return to the paddock.
14:30	Test 10 to commence
16:00	Test 13 to commence
17:15	Last car completes final test. Competitors & marshals help clear up.
18:00	Awards

Please allow the Marshals PRIORITY TO PUSH IN FOR THEIR MEALS AT LUNCHTIME.

Nearest postcode to the entrance is CM7 4EP

#### OPERATIONS HEALTH AND SAFETY REGULATIONS

#### 1. GENERAL

Every person participating in the Event, whether employed or voluntary, shall take reasonable care for the health and safety of themselves or other persons who may be affected by his/her acts or omissions during the operation of the event.

In the implementation of these requirements the Organisers have:

Appointed the Clerk of the Course as the person responsible for all health and safety matters in connection with the event, to whom support staff have been allocated to monitor all health and safety regulations and aspects of the event.

Arranged for those participating in the event, whether employed or voluntary to be provided with a copy of this statement.

Provided training and instructions to officials who will supervise health and safety aspects of the event at Service Areas and Support Areas.

Taken steps to ensure that, as far as reasonably practicable, those not directly involved in the event, but who may be affected thereby, are not thereby exposed to risks to their health and safety by virtue of non-compliance with this statement and the attached instructions.

Published recommendations for distribution to competitors relating to the manner in which servicing and re-fuelling of competing cars shall take place in Service Areas and Support Areas and the manner in which petroleum spirit is conveyed and stored.

#### 2. OFFICIALS' OBLIGATIONS

All officials are required to acknowledge in writing that they have received, read and understood this statement

All officials are required to take reasonable care throughout the event for the health and safety of themselves, the competitors and all personnel operating on their behalf and all other persons who may be affected by their operations during the event.

#### 3. COMPETITORS' OBLIGATIONS

All competitors are required to acknowledge in writing that they have received, read and understood this statement and that all personnel operating on their behalf have received suitable training and carry a copy of this statement.

All competitors are urged to comply with the published recommendations relating to:

- o Refuelling of competing cars.
- o Conveying and storage of petroleum spirit.
- o Equipment and working practices.

All competitors are required to take reasonable care throughout the event for the health and safety of themselves, all personnel operating on their behalf and all other persons who may be affected by their operations during the event.

#### 4. RE-FUELLING OF COMPETING CARS

The re-fuelling should be the last task to be carried out when a car is being serviced.

No other work on the car should be carried out while the car is being re-fuelled.

During re-fuelling a Service Team member must be available in the immediate vicinity of the re-fuelling activity, equipped with a suitable and sufficient fire extinguisher.

Where reasonably practicable a re-fuelling zone should be created around the car of not less than 7

metres (20 feet). Persons not engaged in the re-fuelling should be outside this area. Only the relevant quantity of fuel, required to undertake the refuelling, should be placed in the re-fuelling zone.

An ample supply of dry sand or other suitable absorbent material, in a suitable container, together with the means of application must be readily available in the event of spillage of petroleum spirit.

Non-static protective flame retardant clothing should be worn at all times by those working within the re-fuelling zone, whether undertaking vehicle servicing or re-fuelling. In the case of any fuel spillage on the flame retardant clothing, this clothing should be removed immediately and replaced with clean flame retardant clothing. Those carrying out the re-fuelling or who are in the refuelling zone should wear oil resistant shoes, no metal soles, and not carry any method of ignition.

Smoking is not permitted in service areas, or whilst servicing or re-fuelling is being carried out. No potential source of ignition should be allowed within the re-fuelling zone.

#### 5. THE CONVEYING AND STORAGE OF PETROLEUM SPIRIT

It is required that the conveyance of petroleum spirit on vehicles (other than that contained in the vehicle's fuel tank) complies with the Classification, Packaging and Labelling of Dangerous Substances regulations 1984.

The vehicles must carry the necessary identification, both front and rear, the fuel containers must be marked "Flammable Liquid", and in the driving compartment there must be the correct transport emergency card.

Note: All labels and emergency cards are available to competitors from the MSA.

#### 6. EQUIPMENT AND WORKING PRACTICES

Where reasonably practicable when a car is raised on a jack, axle stands must be put in place before any work is carried out on the vehicle.

The use of electric power tools is not recommended unless these are intrinsically safe for use in flammable atmospheres. The use of pneumatic tools is encouraged.

Teams should ensure that all tools are kept in good and safe condition.

The use of suitable protective clothing is recommended: the correct eye protective equipment when undertaking welding or grinding and suitable hand protection and fire proof blankets when handling sharp, heavy or hot parts of the vehicle.

When carrying out any work relating to the fuel system of the car, the battery must always be disconnected.

#### 7. SERVICE AND SUPPORT AREAS - HEALTH AND SAFETY MEASURES

The organisers have arranged, in relation to each of the Service Areas and Support Areas:

Supervision by a the Event Safety Officer who will operate under the auspices of the person appointed in terms of paragraphs 1.a. above and who has authority to report any competitor who fails to comply with the requirements and recommendations set out in this document.

The supply of suitable and sufficient fire extinguishers.

The provision of suitably equipped and crewed safety vehicles.

The provision of a direct means of contact with the emergency services.
